THEY'LL KNOCK THE
BOTTOM OUT
OF THE FEEDER

"The stress of Texas's long hot summers is a lot for all cattle to take, but it is even more challenging when trying to keep mature show cattle at the top of their game. The combination of Sure Champ® pellets and the Vita Charge® Stress Tubs have made keeping our showstring in top form through the summer months an easier process. The cattle stay on feed and manage the stress of continual 90 to 100 degree days, which allows us to remain competitive with exhibitors from more favorable summer climates."
