NEWBORNS

Development of the digestive system is as important as the immune protection mother's milk provides. Vita Charge improves overall health and gets newborns off to the right start toward efficient utilization of dry feedstuffs.

WEANING

Vita Charge helps animals adapt to change by keeping them eating, healthy and growing when stressed by weaning, shipping and receiving.

BREEDING-AGE ANIMALS

Purebred or commercial, it pays to keep animals in top condition.

BACKGROUNDING & FEEDLOT CATTLE

Vita Charge maximizes profitability in the feedlot by getting cattle on feed quickly for optimum feed efficiency and maximum weight gains.

SHOW ANIMALS

Animals going off feed due to stress can be one of the more frustrating aspects of showing. Vita Charge protects your animal and helps them recovery from stress quickly to keep you in the winner's circle.
