

KEEP THEM HEALTHY, HAPPY AND LAYING

Your chickens are more than just birds pecking in the backyard. They are your feathered friends. They provide eggs for you and your family, entertainment and companionship. Make sure they get the most nutritional value from what they are eating each day by providing them vitamins and minerals to support flock health and overall well-being. Feel good in providing the best to them so your flock can flourish with boosted eco-friendly nutrition.

ATTRACT BIRDS TO YOUR YARD

Enjoy watching a variety of birds visit your yard or garden without the mess! Birds of several colors and sizes will love the prebiotic treats, while you don't have to worry about the leftover mess on the ground below the feeder. Support your backyard friends with boosted eco-friendly nutrition.
