## Key Benefits:

### The correct balance of required minerals and vitamins.

High levels of niacin, biotin and other B vitamins to help stimulate appetite and overcome stress. Also contains high levels of Vitamin E for stamina and organic zinc, manganese and copper for increased absorption.

### The Amaferm® advantage

Increases the availability of energy and protein levels via the improved digestion of ration fiber components. Moderates digestive tract pH increasing the horse's well-being and performance.

### What value does it have in the animal?

Supports optimized health and performance via the convenience of a highly fortified free choice mineral.

Caution: Due to copper level, do not feed to sheep.
