Key Benefits:

The correct balance of required minerals and vitamins.

High levels of organic zinc, manganese and copper along with selenium, vitamins A, D, E and complex B Vitamins. Contains lysine, the first limiting amino acid for muscle development, shape, and expression.

The Amaferm® advantage

Increases the availability of energy and protein via improved digestion of ration components. Promotes ideal efficiency, gain and intestinal health. Helps maintain appetite, especially in hot weather, during shipping and any other stressful situations.

What value does it have in the animal?

Provides a highly fortified combination of essential nutrients for high performance show pigs to optimize health, genetic potential and bloom.

Caution: Due to copper level, do not feed to sheep.
