VITA CHARGE® STRESS TUB WITH MOS

BE PREPARED TO FACE AND RECOVER FROM THE STRESSES OF:
WEANING • SHOWING • BREEDING • VACCINATION • TRANSPORTATION

Convenient

Livestock get their daily dose of **Vita Charge®** in a pen setting with our 50 lb. tub. Ideal for newly weaned calves or cattle that are a part of your sale or show string.

Appetite Igniter

AMAFERM® is a research proven rumen stimulator that ignites appetite. You'll see your livestock utilizing rations more efficiently and appetites steadier especially during stressful situations like feed and water changes, weaning and time spent on the road.

Improved Health

Bio-MOS is a unique product that traps bad bacteria in the digestive tract. This ensures that feed intake stays consistent and keeps digestive upsets at bay.

Nutritional Punch

Organic trace minerals help ensure that your animal is healthy on the inside for increased immunity.

Keeping livestock on feed at home and on the road keeps them in the winner's circle.

Grand Champion Bull All American Angus Futurity

"The stress of another long, hot Texas summer is a lot for all cattle to take, but it is even more challenging when trying to keep mature show cattle at the top of their game. The VitaFerm product combination of Sure Champ pellets and Vita Charge Stress Tubs have made keeping our Angus show string in top form through the summer months an easier process. The cattle stay on feed and manage the stress of continual 90 to 100 degree days, which allows us to remain competitive with exhibitors from more favorable summer climates."

— Doug, Jane & Katy Satee, Doug Satee Angus

"Summers in Indiana tend to cause a lot of stress on calves that have been recently weaned, not only from a standpoint of heat stress, but from being moved in and out of the showbarn and to different locations. Since using the Vita Charge Stress Tubs, we have seen a tremendous difference in cattle transitioning better from the various out-of-state locations we bring them in from. Calves are more aggressive at the feed bunk which results in better gain, less heat stress, and therefore, they are healthier." — Tim Schaeffer, Schaeffer Show Cattle, Indiana

Supreme Champion Heifer Houston Livestock Show and Rodeo Harley Sargent, TX

"For several years, in conjunction with Sure Champ, we have used Vita Charge Stress Tubs during weaning and in preparation for our sale. Our calves had more bloom, stayed healthier and there was a definite improvement in feed utilization."

— Jeff Sargent, WHR Shorthorns
